Prabesh Kafle

Computer Science Student

Motivated Computer Science student at NAMI College with a strong interest in programming, problem-solving and technology. Eager to learn new skills, contribute to projects and apply academic knowledge to real world situations. Dedicated to continuous growth and achieving excellence in the IT field.

ACHIEVEMENTS

- Leadership

Led a five-person team to deliver a university project ahead of schedule, earning 95% positive feedback from instructors through proactive coordination and quality focused execution.

AWARDS

- Intra-College Science Exhibition

NAMI College / 2024 / Shivachowk, Ktm

Won first place at the Intra-College Science Exhibition held at NAMI College, Shivachowk, Kathmandu (2024), demonstrating strong innovation and technical skills.

EXPERIENCE

- Currently Seeking for some Work Experience

TRAINING/CERTIFICATIONS

- Digital Marketing

Model Institute of Technology / 2024

Completed a comprehensive course mastering SEO, social media, PPC, and analytics using tools like Google Ads and Meta Business Suite. Developed practical skills in crafting data-driven campaigns to boost engagement and conversions.

PROJECTS

- Lifi, Clap Sensor Bulb, Telescope

Led innovative science projects, including designing a functional telescope to study optics and astronomy, developing a LiFi (Light Fidelity) prototype for wireless data transmission via LED light, and creating a clap-activated smart bulb using Arduino and sensor circuits. Demonstrated strong technical skills in electronics, programming, and problem-solving while fostering teamwork and hands on experimentation in cutting-edge technologies.
